Relevant Work

Self-Driven   **2025 − Present**
Project-Based Experience   *Remote*

- Analyzed and interpreted structured datasets using **SQL, Power BI, and Excel** to derive business insights.
- Cleaned, transformed, and visualized data to support decision-making for sample business cases.
- Created **Power BI dashboards** and Excel reports showcasing key metrics such as sales growth, employee attrition, and departmental KPIs.
- Applied data validation, normalization, and aggregation techniques to maintain data accuracy and consistency.

Education

CIMAGE Professional College, Patna   **2023 − Expected 2026**
Bachelor of Business Administration (BBA), General Management

Patna Collegiate School, BSEB   **2021 − 2023**
Senior Secondary (I.Com) − Percentage: 74%

Experience

Elevate Labs   **Aug 2025 − Sep 2025**
Data Analyst Intern

- Performed data verification and ensured accuracy in large business datasets.
- Designed and developed interactive Power BI dashboards to track KPIs and metrics.
- Applied SQL queries for data extraction, transformation, and trend analysis.
- Collaborated with mentors to clean, normalize, and prepare datasets for reporting.

Projects

HR Excel Analytics Dashboard – GitHub Repo   **Sep 2025**

- Built an interactive HR analytics dashboard using Excel and Power Query to visualize key HR metrics like attrition, employee demographics, and department trends.
- Used pivot tables, charts, and slicers for dynamic data filtering and storytelling.

Retail Sales Analytics using SQL – GitHub Repo   **Aug 2025**

- Developed analytical SQL queries for revenue growth, product performance, and customer purchase trends.
- Optimized queries for performance, improving report generation time by 25%.
